

Service Contracts

Service contracts for GC/MS and LC/MS

In recent years Agilent has moved away from support of the older GC/MS and LC/MS systems, CSS ANALYTICAL IS READY TO STEP IN. We now offer service agreements to certain customers (in certain accessible areas) with certain HP and Agilent GC/MS and LC/MS Systems including the 1100 LC/MSD at very competitive prices. Please call or e-mail for availability in your area, prices and additional information.

The following is a brief listing of service contract documents. These documents will be included in any service contract and specify the scope of available services:

- [sd900.pdf](#) General terms and conditions.
- [sd200.pdf](#) Mass Spec Ion Source for cleaning in our factory.
- [sd100.pdf](#) Regular "PMs" for your instrument. Why bother when we can do them for you ?
- [sd500.pdf](#) On-Site guaranteed service at your facility with 48, 60 or 72 hour response.
- [sd310.pdf](#) At our factory repair of your instrument within a workable amount of time.
